PARMA-DITAM Workshop CALL FOR PAPERS

PARMA-DITAM 2021
PARMA 2021: 12th Workshop on Parallel Programming and Run-Time Management Techniques for Many-core Architectures
DITAM 2021: 10th Workshop on Design Tools and Architectures for Multi-Core Embedded Computing Platforms

The current trend towards many-core and the emerging accelerator-based architecture requires a global rethinking of software and hardware design. The PARMA-DITAM workshop focuses on the advanced many core architectures, accelerator based many-core system-on-chips, programming models, design space exploration and tools and run-time management techniques to exploit the features of such (heterogeneous) many-core processor architectures from embedded to high-performance computing platforms.

TOPIC AREAS

The workshop will have six main topics:
- T1: Programming models and languages, compilers and virtualization techniques
- T2: Runtime adaptivity, runtime management, power management and memory management
- T3: Heterogeneous and reconfigurable many-core architectures, accelerator-based architectures, and design space exploration
- T4: Design tools and methodologies for many-core architectures
- T5: Parallel applications for many-core platforms
- T6: Architectures and compiler techniques to accelerate deep neural networks, neuromorphic accelerators

ORGANIZATION

General Chair: João Bispo, Universidade do Porto, jbispo@fe.up.pt
Program Co-Chair: José Flich, Universitat Politècnica de València, jflich@disca.upv.es
Program Co-Chair: Stefano Cherubin, Codeplay, stefano.cherubin@codeplay.com
Publicity Chair: Amir H. Ashouri, Huawei, amirh.ashouri@huawei.com
Steering Committee:
- Giovanni Agosta, Politecnico di Milano, agosta@acm.org
- João M.P. Cardoso, Universidade do Porto, jmpc@acm.org
- William Fornaciari, Politecnico di Milano, william.fornaciari@polimi.it
- Michael Hübner, Brandenburg University of Technology Cottbus-Senftenberg, huebner@b-tu.de
- Cristina Silvano, Politecnico di Milano, cristina.silvano@polimi.it
- Dimitrios Soudris, National Technical University of Athens, dsoudris@microlab.ntua.gr

PAPER SUBMISSION INSTRUCTIONS

Proceedings of the workshop will be published in the Dagstuhl OASIcs: OpenAccess Series in Informatics. Proceedings will be indexed by Scopus, Google Scholar, and all the major scientific databases.

Papers should be submitted electronically through the workshop website. The review process will be double-blind.

Electronic paper submission requires a full paper, up to 10 OASIcs format pages of running text, including title, abstract, figures, tables, and any appendix. References are excluded from this limit.

Papers should be submitted in PDF format. Please use the following template when preparing your manuscript: https://submission.dagstuhl.de/documentation/authors#oasics

IMPORTANT DATES

Notification of acceptance (extended): 28 December 2020
Camera ready version (extended): 07 January 2021
(Virtual) Workshop: 19 January 2021 (co-located with HiPEAC Conference)
